

Dear Khant,

Your application for Early Decision admission to Carleton has been carefully reviewed by the Admissions Committee. We have decided to defer a decision on your application and to reconsider your application as a Regular Decision candidate in the spring.

While it was clear to the Admissions Committee that you have the potential to pursue study at the college level, we have decided to evaluate your candidacy in the context of all of this year's applicants. Before we review your application for Regular Decision, we will need to receive an official transcript of your current semester's final grades. If you wish to submit any additional materials, please do so as soon as possible so the Admissions Committee can review the information with your original application.

We will notify all candidates of our final decisions no later than March 31. Since we anticipate receiving over 8,500 applications for a place in Carleton's Class of 2026, we encourage you to submit applications to other colleges if you have not already done so. While I cannot predict the final outcome of the Regular Decision process, I do want to assure you that in past years we have offered admission to some applicants who were deferred in Early Decision.

We appreciate your strong interest in Carleton College and recognize the disappointment of this decision at this time. I hope at a later date to be able to send you better news. In the meantime, I wish you well in your ongoing studies.

Sincerely,

Art D. Rodriguez '96  
Vice President and Dean of Admissions and Financial Aid
